CONTINUING EDUCATION WORKSHOP & DINNER

FORM R - STORM WATER - CERS

Trainer: **Jim Mille**, Chemical Solutions, Inc.

This workshop will review three very important environmental programs that have requirements due in July!

Form R is USEPA's Toxic Release Inventory Report. Many of you will not be required to complete this report. But you need to evaluate your specific facility's data each year to ensure you are not captured. Consequences of not completing this report, if required, are substantial!

The Stormwater Program is an ongoing requirement for nearly every shop. The Stormwater Annual Report is due next month. There are also a few new items being added to the program. And as you may know the environmental groups are threatening lawsuits for non-compliant facilities.

The California Environmental Reporting System (CERS) has changed. Every company must review their chemical inventory and re-code the Federal Hazard Categories for each chemical. The due date for compliance varies by facility.

All of these programs will be reviewed with an emphasis on how to comply. Bring your questions for this important workshop !!!
