

FORM R - STORM WATER

Trainer: NES - Network Environmental Solutions, Inc.

This workshop will review two very important environmental programs that have requirements due on July 1, 2023.

Form R is USEPA's Toxic Release Inventory Report. Many of you will not be required to complete this report. But you need to evaluate your specific facility's data each year to ensure you are not captured and show your work. Consequences of not completing this report, if required, are substantial.

The CA Stormwater Program is required for every business. The Stormwater Annual Report is due July 1st. Environmental Groups continue to file lawsuits against non-compliant companies with a keen eye on the NEC shops. The cost to comply is cheaper than an attack by any of the Environmental Groups. Don't miss this important training workshop.

NES is an environmental health and safety consulting and training firm based out of Northern California and serving national needs for over thirty years.

This is our first training with NES so we hope to gain a fresh perspective on the above regulatory programs and get updates on any changes that may have occurred in the last year.
